

## VENEZUELA TROUBLE MAY SOON BE ENDED

Without Much Further Delay It Is Thought the  
Blockade Will Be Raised and Dispute  
Sent to the Hague.

Washington, Feb. 7.—Sir Michael Herbert's attempt to discredit Minister Bowen and oust him as a negotiator has been followed by the refusal of President Roosevelt to act as arbiter on the preference question in the Venezuelan dispute as wired the Advocate yesterday. This will now go to the Hague.

The next steps to be taken will be the signing of protocols between Bowen and each of the representatives of the allies. They will provide for the setting aside of 30 per cent of the customs receipts of Puerto Cabello and LaGuayra to pay the claims of all powers which have already submitted bills; the raising of the blockade upon the signing of the convention, the reference of the question of preference to the Hague and upon what basis, and the payment to each of the allies of \$27,500 in cash.

## AGREEMENT REACHED BY SCALE COMMITTEE THIS NOON

It Is Thought the Committee's Set-  
tlement Will Be Ratified—An  
Advance Is Allowed.

Indianapolis, Feb. 7.—The Ohio, Western Pennsylvania and Indiana soft coal miners and operators joint scale committee reached a settlement at noon and will report to the general conference for ratification this afternoon. The scale for the ensuing year gives the miners an advance ranging from 12 1-2 for pick miners and day laborers to 22 per cent for drivers, an average of 14 per cent. It is thought the agreement will be ratified. While the scale that was signed is only for three states it will also be used as a basis on a settlement in the other twenty mining bituminous states. The advance was based on the ruling high prices of coal during the past year. Operators say the advance will add from 22 to 24 per cent to the cost of bituminous coal produced in this country.

## The Chicago Strike.

Chicago, Feb. 7.—It was a case of walk today for the occupants of fifteen down-town office buildings where the elevator men, janitors and window washers have gone on a strike. The army of walkers was increased by 3,000 this morning, the elevators in the National Life building being shut down. At least fifteen thousand persons have been compelled to temporarily abandon their daily vocations, because of the strike. Fifteen buildings are tied up today so that with two exceptions their upper floors cannot be used and the first four or five stories are practically deserted.

## DEMOCRATIC Editors Hold Meeting in Columbus— J. H. Newton of Newark Elected President.

Columbus, O., Feb. 7.—The Ohio Democratic Editorial association met at the Great Southern hotel Friday afternoon, to hold the annual election of officers and to discuss matters of importance to Democracy in the state.

There are about 200 Democratic editors in Ohio. H. E. Alexander of Zanesville, O., the president, was absent, and W. A. Taylor, of this city, presided. A new set of officers were elected, the following being the official roster for 1903: President, J. H. Newton, Newark Advocate; vice president, C. B. Harris, Athens Journal; secretary and treasurer, N. E. Arnold of Marion, re-elected; executive committee, W. G. Beebe, Mt. Gilead Register; J. W. Faulkner, Cincinnati Enquirer correspondent, city and L. G. Barton, of the Holmes County Farmer, Millersburg, Ohio.

Mr. Arnold offered a suggestion that the state executive committee set aside a certain amount each year six weeks before election to establish a literary bureau for the Ohio Democratic papers. The matter was generally discussed and adopted.

W. J. Frey, chairman of the State Democratic Executive committee was present, and a prominent figure at the meeting. O. M. Riddle of Columbus was also at the meeting, in addition to the men named above, as newly elected officers.

## "SOLDIER" Was the Game the Lads Were Playing Involved a March to Mt. Vernon.

Baldwin Dickinson son of Mr. A. C. Dickinson, and John Sherwood Fleek, son of Mr. Henry S. Fleek, lads about nine years old, caused their parents acute anxiety, and the neighborhood sympathetic concern today.

The little fellows were "playing soldier" with other boys and one of their members, a boy named Black, had been put in the "guardhouse" for some infraction of the regulations that governed that particular branch of "the service" located in North Newark.

Black did not relish his confinement and made a bold dash for liberty. The guard however was alert, and a too well directed shot from an air gun, brought the prisoner to a short stop.

After this the Fleek and Dickinson boys concluded to take a "march."

When they did not appear at their homes for dinner, the parents of the young soldiers became alarmed and a search was instituted with the result that Wm. C. Miller found the little fellows getting a drink at a farm house, several miles from town on the Mt. Vernon road. When asked where they were going, they valiantly replied: "We are going to Mt. Vernon."

Mr. Miller, however, inserted some changes in their proposed itinerary, and they were brought to Newark instead, and restored to their anxious parents.

## GRANVILLE NEWS.

Granville, O., Feb. 7.—Mr. and Mrs. Dr. A. K. Follett entertained the members of the Centerville club at their home one mile east of this place on Friday night. Nearly all the members of the club were present, and the evening was spent in having a good social time, which was seasoned with a sumptuous supper.

Mr. and Mrs. J. H. Green of Franklin county, who have been visiting friends and relatives in Granville and vicinity for some days, returned home on Friday evening, after having had a most enjoyable visit.

Miss Alice Bordon, a charming young lady of Columbus, is visiting friends in the village for a few days.

Clark county's boast that no death penalties had ever been pronounced there, is liable to be an empty one, as eight murders have been committed in the past 12 months. A legend is extant that the ground on which county buildings stand reverts to the heirs of any one should be sentenced to die.

We are ready to believe what touches us—and this is true in as many as several directions.

## PRATT Today. Acquitted By Jury

SECURED A CHANGE OF VENUE

The Defense Contended that Mrs. W.  
H. Pratt Committed Suicide on  
July 24, 1901.

Reading, Pa., Feb. 7.—Wm. H. Pratt who has been on trial here charged with the murder of his wife, was acquitted this morning. The decision of the jury was popular, as more than a thousand persons crowded around and congratulated Pratt after the announcement was made.

At the former trial in West Chester the scene of the tragedy Pratt was found guilty of the murder in the first degree. He succeeded in getting a new trial and change of venue.

Mrs. Pratt was found dead in her home July 24, 1901. There was a bullet hole in the back of her head and her throat was cut. Subsequent investigation led to the arrest of Pratt who it was charged had been neglecting his wife for some time and spending his evenings with a widow by the name of Lettie Farris. The defense contended that Mrs. Pratt committed suicide.

## LOSS OF SAVINGS Caused Death of Wm. Cheney Treas- urer of Association Looted by Bayer of Circleville.

Columbus, O., Feb. 7.—The peculations of Christy Bayer, secretary of the Germania Building and Loan Association of Circleville, have caused the death of the venerable treasurer of that association.

A message received yesterday announced that William Cheney, treasurer of the Germania, was dead from heart disease.

Cheney who was one of the oldest business men of Circleville, had all of his money invested in the running stock of the Germania, which is a total loss. The misfortune so preyed upon his mind that death resulted. The examiners who have been working on the books of the Germania, said yesterday that the shortage had reached \$17,000 and would go beyond \$20,000.

Judge Walters has appointed receivers for the company, and its affairs will be wound up. As its total stock is but \$12,000, the stockholders will be compelled to bear a heavy loss in addition to their holdings.

## PRINCESS LOUISE AND GIRON WILL SEPARATE

Illness of Princess' Son Leads to Final Determination  
--It is Not Yet Known Whether The Divorce  
Suit Will Be Quashed.

Geneva, Feb. 7.—Crown Princess Louise of Saxony and M. Andre Giron the young Belgian tutor with whom she eloped on December 13, have parted forever. The Princess gives up her lover for her children's sake.

The following official announcement is made by Herr Zehme, the legal adviser of the Crown Princess:

"M. Giron will leave Geneva for Brussels, where he will join his family. M. Giron has broken off all relations with the Princess in order not to impede the reunion of the Princess with her children."

Herr Zehme arrived here from Dresden yesterday afternoon and went immediately to the Hotel Suisse, where the couple awaited him. A long conference took place, in which M. Lachenal, the former President of the Swiss Confederacy, joined. At its conclusion there was a most touching parting scene, at which the Princess wept and M. Giron was greatly affected.

In an interview Herr Zehene said that Giron was making a great sacrifice for the good of the Princess. It was, he said, the only possible solution, as the Princess would not relinquish the right to see her children which the Crown Prince and the King of Saxony insisted upon withholding unless she consented to a separation from the tutor.

What really led to the more rapid severance of the relations between the eloping couple, it is said, was the illness of the Princess's second son, Prince Friedrich Christian, aged 9, who has typhoid fever. As soon as the news reached Mentone, in the Riviera, where the couple were staying, the Princess displayed great grief and would not rest until she was well on her way back to Dresden. She would have gone direct to the Saxon capital instead of to Geneva were it not for the vigilance of Detective Schwab, of the Saxon court, who told her that he could not permit her to cross the frontier.

In despair the Crown Princess sent for her counsel, who advised her that her only course as a wife and mother lay in an absolute separation from Giron.

The Crown Princess will go to Dresden today. It is believed that she will insist on living apart from her husband, and some arrangement will be made by which she will be permitted to see her children.

Whether or not the divorce proceedings, which are pending, will be quashed has not yet been decided. It is probable that a reconciliation between the Crown Prince and his wife will be effected.

Dresden, Feb. 7.—(Bulletin)—The Saxon ministry has rejected unanimously the request of the Crown Princess Louise that she be permitted to return to Dresden and see her sick child. The ministry will not permit a visit of even a few hours. Their decision has been telegraphed to the Princess.

Geneva, Feb. 7.—Mother Love has conquered the affairs of Crown Princess Louise, of Saxony, and she is now doing her utmost to obtain permission to visit Dresden to see her sick child. The Princess has seemingly almost forgotten the existence of M. Giron with whom she eloped last December for she never mentions his name, but continually asks about her children.

The Crown Princess' lawyer has telegraphed to the lawyer of the Crown Prince to obtain if possible the permission for his client to go to the bedside of her son.

Berlin, Feb. 7.—It is stated here that the Crown Princess Louise of Saxony has been notified that she will not be allowed to reside in Italy, Switzerland or any other country without a certificate of legitimate emigration. This the Saxon government has refused to issue.

The dispatch from Vienna today says the present whereabouts of the Crown Princess are unknown. She has been informed of the progress of her son's illness by her mother, the Duchess of Tuscany who communicates through M. Lachenal, the Princess' counsel.

The mother and daughter, it is stated, will probably have an interview on the frontier, but a reconciliation is most unlikely. If the Crown Princess sets foot on Saxon or Austrian soil she will run the risk of life long incarceration.

### SCABS BETRAYED.

They Were Used Before Commission  
as They Were in the Mines.  
Just before leaving Philadelphia to  
attend the convention of the miners at  
Indianapolis John Mitchell made a  
farewell address to the coal strike  
commission. Among other things he  
said:

"I wish to take this occasion to ex-  
press my satisfaction and that of the  
miners whom I represent for the man-  
ner in which the investigation is being  
conducted. I feel confident that by the  
thoroughness of the inquiry it will re-  
sult in much good.

"There has been a large part of the  
time of the commission taken up by  
the presentation of evidence to show  
lawlessness in the coalfields, or that  
lawlessness existed to a large extent  
during the latter part of the strike.  
Personally I bear no ill will to those  
who came here, bear no personal malice  
to those who worked, and in stating  
what I am saying I am trying to  
separate myself as far as possible  
from the special interests I represent.

"The nonunion man who was brought  
here, the fellow who was called a  
'scab,' was brought here for the same  
purpose he was put in the mines. He  
was put in the mines for the purpose  
of destroying the efforts of the men  
who went on the strike.

"He was brought here under the pre-  
text of getting an advance in wages.  
He was deceived by a plea made before  
the commission that an effort would  
be made by those who had his case in  
charge to secure for him an increase of  
wages. He came here paid by the com-  
panies, hotel bills paid by them, and  
our men who went around to see them  
say money was furnished to them to  
enjoy themselves while they were here.

"He came here, and in not one single  
instance did those representing him at-  
tempt to show that he was entitled to  
an increase in his earnings. The non-  
union man was used, betrayed by those  
who proposed to take care of his inter-  
ests before the commission.

"I want to say, too, as to the matter  
of lawlessness that there is no man con-  
nected with the organization, there is  
no man associated with this investiga-  
tion, who would condemn lawlessness  
stronger than I would.

"If I did not do it because I was op-  
posed to lawlessness, I would do it be-  
cause it militates against the success  
of a strike and against the success and  
advancement of the organization. I do  
not believe lawlessness ever won a  
strike. I do not believe lawlessness under  
a very large degree deterrers men from  
working. I believe lawlessness under  
all circumstances will militate against  
the men who go on strike.

"As I have said many times, I have  
an abiding faith in the American peo-  
ple. I believe that when they under-  
stand a cause to be right they will sup-  
port it, and without the support of the  
people no great movement can succeed.  
That is true of a strike. If the people  
of the country are not in sympathy  
with it, it must fail, and I am sure the  
sympathy of the people will never be  
with those who violate the law."

**Absolutism Versus the People.**  
It is a crisis. A new absolutism is  
rising, but against it has risen that  
master of all the absolutisms, the peo-  
ple. Against the absolutism of govern-  
ment rose the democracy of govern-  
ment; against the absolutism of prop-  
erty will rise the democracy of property.  
It will be the destiny of America to  
gather all these other democracies into  
a composite democracy which shall  
contain the best of the creeds and the  
best of the democracies everywhere.  
Then we shall see for the first time in  
history that imperial democracy in  
which every man shall be an emperor  
and every woman an empress—that  
new democracy which shall give to the  
use of all the resources of nature for  
all the families of man for the good of  
all the people.—Henry D. Lloyd.

# STATE POLITICS

## Progress of the Republican Scrap Over the Gubernatorial Nomination--Movements in Democratic Circles--Zimmerman for Governor--The Jefferson, Jackson Lincoln Banquet.

Columbus, Feb. 7.—The progress of  
the Republican scrap over the nomi-  
nation for governor appears at this  
distance from the time of holding the  
state convention to seriously imperil  
the ascendancy of the many-titled  
General C. W. F. Dick, of Cheekbook  
and other fame, in the councils of his  
party in this state. As the inelegant  
Republican politician expresses it  
Dick is "up against the real thing  
now." There never was a time when  
he had a right to expect anything in  
the way of support from the Foraker  
people, and with the Hanna crowd for  
Herrick it looks very much as if the  
Akron statesman had about outlived  
his usefulness, at least so far as his  
own preferment for further political  
honors is concerned. At the time  
General Dick announced his alleged  
withdrawal from the race for the  
nomination, it was hinted in some  
significant circles that there was a  
string tied to it and that while it  
dangled much in the index it meant  
very little in the issue. Now, how-  
ever, it appears that even if the general  
had really attached to his withdrawal  
the whipcord he is alleged to have  
tied to it, his pulling apparatus is en-  
tirely out of gear. The contrivance  
refuses to work and for a very good  
reason.

Colonel Myron T. Herrick seems to  
have made all the peace that was  
necessary with the Foraker people. At  
any rate none of the former fire-eat-  
er's friends are now questioning his  
candidacy and there is good reason for  
believing that word not to do so has  
come to them directly from their chief.  
With the Hanna people at least tena-  
tively behind Herrick and certainly  
not promoting any other candidacy,  
this situation makes the Cleveland  
man the "peace candidate." How long  
this condition of affairs will continue  
cannot be foretold with certainty, but  
there is no promise of an early change  
in the situation.

If this holds good, General Dick will  
have the extreme felicity of acting as  
chairman of a state committee in  
charge of a campaign in favor of a  
man whose candidacy has sent that  
very chairman to the political bone-  
yard. This will be the saddest experi-  
ence in the life of the statesman from  
Akron. John R. Malloy seems to  
view it with a kind of ghoulish glee  
and the old Foraker following, that  
has suffered so much agony at the  
hands of Dick, cannot restrain its  
joy as it observes the situation in  
which the latter is now placed. It is  
a strange condition of affairs that de-  
velops such a harmony of feeling be-  
tween both Hanna and Foraker. It  
would appear that Colonel Herrick is  
a favored child of fortune in this mat-  
ter, for if the position in which he  
finds himself is not developed by an  
unprecedented streak of luck in polit-  
ics, it is impossible to describe just  
what can account for it.

Indications point to some "doins"  
in the Democratic ranks during the  
next two weeks. Chairman Frey, of  
the Democratic state committee, has  
asked a number of the state central  
committees what they think about  
the advisability of holding a meeting  
in this city in the near future and it  
is said that sentiment is strongly in  
favor of such a meeting.

If Adam and Eve had not had so  
much curiosity their progeny would  
not now be howling for coal.

Russian Jews to the number of 24-  
000 came to New York during 1902.

**Impudent and Presumptuous.**  
The demand for the incorporation of  
trade unions is the last trench of those  
who oppose organized labor. It is im-  
pudent and presumptuous. No friend  
of trade unionism ever believed in it or  
advised it or called for it. It is de-  
manded today by enemies who have  
used every means at their command to  
oppose trade unionism, to counteract  
its influence and to destroy it.

How the labor organizations shall  
manage their own affairs is not the  
business of the corporations or the em-  
ployers. This new demand for the in-  
corporation of labor unions is not only  
unjust and unreasonable, but it is im-  
pudent and insulting to the last degree.  
—Clarence S. Darrow.

**To License Barbers.**  
Chicago joinmen and boss bar-  
bers will present a bill to the legisla-  
ture providing that all barbers shall  
pass an examination as to competency  
before they can work at the trade.

The word comes from Springfield  
that Hon. John L. Zimmerman has  
practically completed his arrange-  
ments for a campaign and will short-  
ly make a formal announcement that  
he is a real live candidate for the  
Democratic gubernatorial nomi-  
nation. Mr. Zimmerman is a lawyer of  
ability and a business man of broad  
experience. For years he has taken  
an active part in the work of building  
up Springfield and his standing both  
politically and otherwise throughout  
Clark county cannot be questioned.  
He is regarded as one of the leading  
Lutherans of the country and in finan-  
cial circles his judgment is accepted  
as good as the best.

It is said that the Zimmerman  
campaign will be managed from  
Springfield by ex-Mayor Burnett. The  
latter has recently been in Cleveland,  
where he conferred with Charles F.  
Salem, the right bower of the Johnson  
administration. Salem is for Johnson  
for governor and does not attempt to  
conceal it; but the mayor, when ap-  
proached on the subject of his alleged  
candidacy, declines to acknowledge  
the soft impeachment. What progress  
Mr. Burnett made for Zimmerman in  
Cleveland is not definitely known, but  
it is understood that the Johnson peo-  
ple would be inclined to go to Zim-  
merman from all present indications,  
provided Johnson himself does not  
enter the race. In the meantime other  
Democratic gubernatorial possibilities  
are preserving a discreet silence but  
it is not believed that this condition  
will prevail much longer.

William J. Bryan is coming to Ohio  
and will be the principal speaker at  
the banquet of the Jefferson-Jackson-  
Lincoln League in this city on Febru-  
ary 12. Mayor Johnson is also on the  
program and it is expected that local  
interest will be emphasized in the  
event by the announcement of Mayor  
John N. Hinkle of Columbus that he  
is a candidate for renomination. It  
is very profitable that Mayor Hinkle  
will have to contest for this honor  
with Judge Curtis C. Williams, of the  
Franklin county Common Pleas bench.  
Mr. Bryan is expected on this occa-  
sion to set forth clearly his present  
attitude toward all the great questions  
of the day, with special reference to  
the interests of the Democratic party,  
as he understands them. In the next  
presidential campaign. It is under-  
stood that he will not be in Ohio  
again on a public occasion of this kind  
before that campaign opens, and what  
he has to say, therefore, will be in a  
measure his final word to the Demo-  
cracy of Ohio preparatory to the next  
national contest.

The announcement of the sale of the  
Ohio State Journal by Colonel J. D.  
Ellison to an entirely new set of  
proprietors is a matter of political as well  
as newspaper interest. The Journal  
has hitherto been a thick and thin  
Hanna organ, but it is now under-  
stood that its policy in this regard will  
be to some extent modified. It is a  
pretty safe guess that the new man-  
agement will be for Herrick for gov-  
ernor, but that it will also be willing  
to acknowledge occasionally that the  
Foraker people have a right to be  
alive. This will be a very radical de-  
parture on the part of the local organ  
of the G. O. P.

### HINTS FOR FARMERS

A New Idea For Potato Growers.

One of the enterprising farmers in  
Kennebunk county, Me., is George C.  
Jacobs, and among his specialties in  
the agricultural line is raising potatoes.  
He has been very successful in produc-  
ing the earliest to be found in the mar-  
ket. The past season he succeeded in  
raising two good crops on the same  
piece. The ground was thoroughly  
plowed the previous fall. In the spring  
it was harrowed until the earth was  
fine and light, and when ready for  
planting phosphate was dropped in the  
hills to the amount of one ton to the  
acre.

The potatoes for seed were brought  
up from the cellar the last of February  
or first of March and placed in a light  
cool room, so that when they were  
planted they had large green sprouts  
and well developed leaves. As soon as  
the soil was warm enough these were  
placed in the ground. His care did not  
diminish any now that the potatoes  
were planted, and very soon the leaves  
began to push up toward the light and  
air. They were kept free from weeds  
and bugs until the middle of July; then  
Mr. Jacobs began marketing them.  
Clark county cannot be questioned.  
He is regarded as one of the leading  
Lutherans of the country and in finan-  
cial circles his judgment is accepted  
as good as the best.

Meanwhile a second lot of potatoes  
had been sprouted the same as the others  
and planted the first of July be-  
tween the rows, so that when the first  
crop was dug they had the second lot,  
which was already above the ground.  
In September the second crop was har-  
vested. From the first planting Mr.  
Jacobs raised at the rate of 300 bushels  
per acre, from the second 100 bushels.  
The variety used was the New Queen,  
and the only fertilizer was phosphate.

### The Price of Breeders.

Some people who would like to invest  
in improved live stock have been scared  
a little by the high prices paid for fan-  
cy individuals. They seem to think that  
there is no use in trying to get im-  
proved stock at reasonable figures. This  
is all wrong. Good breeding stock can  
be bought today at prices that bear a  
proper relation to the value of market  
animals. It is not necessary now and  
it never was for the breeder of grades  
to pay extravagant prices for pure  
bred sires, no matter what kind of live  
stock he is producing. The sale of fan-  
cy animals, with pedigrees in the  
height of some craze, affords no cri-  
terion of the market for pure bred stock.  
Further, it is not merely unnecessary  
for the breeder of grades to pay ex-  
tremely high prices, but it is usually  
unwise to do so. It is also unwise and  
dangerous to pay extremely low prices.  
The seller of an article knows its value,  
and when he offers a pure bred animal  
at or near slaughter price it is often  
worth less than that. Be judicious but  
not parsimonious in buying sires.—  
Stockman and Farmer.

### Protect Your Friends.

If we would stay the ravages of in-  
sects, we must employ nature's greatest  
insecticides—birds. To do this will re-  
quire not only stringent laws, but a  
public opinion that will compel their  
enforcement. The farmers themselves  
often destroy their best friends and  
then complain of bugs and worms that  
destroy their crops or reduce them be-  
low the point of possible profit. Farm-  
ers can cease this injurious foolishness,  
and they can compel the exemption of  
their farms and lands from the depreda-  
tions of the bird killer. But they will  
do neither one nor the other until they  
realize the importance to themselves of  
doing so. To solve this problem is to  
effectively educate the people on the  
subject. Then proper laws may be  
made and enforced. By so doing we  
can attack not only the bird weevil, but  
all other insect pests in their most vul-  
nerable point.—Farm and Ranch.

### The Gypsy Moth.

People in Massachusetts are becom-  
ing a little anxious over the rapid in-  
crease of the gypsy moth since the  
campaign to exterminate was stopped  
three years ago. The pest is likely to  
give a great deal of trouble soon. Why  
not government and state combine  
forces, as in the case of the present  
cattle epidemic? Let congress be urged  
to make a liberal appropriation con-  
ditioned on help by the state. The state  
cannot finish the work alone, and the  
government doubtless will not, but both  
in co-operation could handle the job  
without putting much of a load on tax-  
payers.—American Cultivator.

### Tobacco Dust and Bees.

Last summer I was induced to try  
tobacco dust on my melon and cucum-  
ber vines as a protection against the  
striped beetle and am satisfied that  
while it proved most effective in that  
regard it also deterred the pollenizing  
insects from visiting the flowers as  
they are wont to do. My crop of melons  
and cucumbers suffered in conse-  
quence of its use. True, the weather  
was unpropitious, but I noticed that  
while the bees, etc., were plentiful in  
other parts of the garden they seemed  
to give the melon and cucumber flowers  
the "go by."—Cor. Rural New  
Yorker.

### Why He Moved His Barn.

We came across the historic man the  
other day who had actually moved his  
barn to get rid of the piles of manure.  
His crops were poor enough and needed  
all the fertilizer he could get, but he  
had to put in much time saving the  
country, running to town and fishing  
that he had to move his barn to get rid  
of the manure.—Farmers' Guide.

### When a Horse Gorges Himself.

If a horse licks into the crib or bin  
and gorges himself on grain, give him  
a good dose of 1. Castor oil, sweet oil,  
codliver oil, and linseed oil are all  
good. To give him water on a grain  
gorged stomach will insure an aggra-  
vated case of colic.

Talk this over with your doctor. If he  
says Ayer's Cherry Pectoral is all right  
for your hard cough, then take it. J. C. Ayer & Co.,

WRITES A LETTER FROM CITY OF  
BLOOMINGTON, ILL.

Descriptive Letter Telling How the  
City Looks to a Newark, Ohio,  
Man Today.

Bloomington, Ill., Feb. 5, 1903.  
Editor Advocate—As the City of  
Bloomington, Ill., has numbered  
among its population many people  
from Ohio and several from Licking  
county, I thought a small article  
might be interesting.

Bloomington is a beautiful city of  
about 25,000 inhabitants and is situ-  
ated a little northwest of the center  
of the state, 126 miles from Chicago,  
and about the same distance from St.  
Louis, on the Chicago and Alton, Big  
Four, Lake Erie and Western, and the  
Illinois Central railroads. A destruc-  
tive fire in 1899, in the very heart of  
the business part of the city destroyed  
the public square and court house  
in the center of the square. But this  
has proved a blessing in disguise, as  
the entire four and one half blocks  
destroyed have been replaced with  
beautiful up to date business blocks,  
many of them equal to structures seen  
in cities of 100,000 inhabitants or over,  
and the splendid new court house is  
nearing completion.

Bloomington is noted for its wide  
streets and beautiful shade trees, and  
is known as the "Evergreen City." Splendid water works, electric trac-  
tion and light company, supply light  
and motive power for three lines of  
electric railroads. Ex-Vice President  
Stevenson is one of the prominent  
business men operating one of the  
largest shaft coal mines in the state,  
employing about 300 miners with a  
daily output of 600 tons, through a  
shaft 375 feet deep. The state Nor-  
mal school is also located here, and  
the Wesleyan Law College and College  
of Music. The city boasts of three  
elegant public parks, all of which con-  
tain artificial lakes. The manufac-  
turing interests are C. & A. railroad  
shops, large foundries, public office  
outfitting furniture company, and a  
large manufactory of all kinds of ma-  
chine supplies; also a very large over-  
all manufactory. Bloomington was re-  
presented in the Spanish American  
war by nearly 500 volunteers as fol-  
lows: Troops B and G. 1st Ill. cav-  
alry; Co. D, 5th Ill. N. G., and Co. G,  
8th Immunes (colored.) Worth Bag-  
ley Camp Spanish American War Vet-  
erans, one of the largest in the state,  
is located here and will entertain the  
Department of Illinois in June, on the  
18th, 19th and 20th. Arrangements  
have been made with Chicago caterers  
to mess 1500 men at one time. Tents  
and cots will be furnished for all the  
boys. The encampment will be held  
in one of the beautiful parks. Col.  
F. B. Higgins is the commander and  
Captain S. H. Vowell is the adjutant  
of Worth Bagley Camp.

Many descendants of the older Den-  
man family of Denman's cross roads  
or corners, are residents of this city.  
The city has two daily papers and  
two German weeklies. The daily pa-  
pers are the Bulletin, Democratic,  
and the Pantagraph, formerly edited  
by Isaac Underwood and son Charles,  
who afterwards came to Newark, and  
with A. B. Clark owned the Newark  
American. is the organ of the Republi-  
can party, ably edited by W. O. Davis.  
Bloomington, politically is Republi-  
can, as Newark is Democratic. Busi-  
ness is booming and labor journals  
claim it is the best organized labor  
city in the state. Eight hours is a  
full day for everybody. No organized la-  
bor ticket for the boys here. They  
vote for the men, not the party.

**Abraham Lincoln.**  
Safe in fame's gallery through all the  
years.  
Our dearest picture hangs, your stand-  
ard face,  
Whose eyes hold all the paths of the  
world.  
Redeemed by you from servitude's sad  
days.  
All hearts redeemed. With glory of earth,  
With ceaseless labor in war's final light,  
With such deep anguish in each lonely  
hour,  
And such sweet very blood are same re-  
deemed.  
What man have you who bore that cross  
on his lone, what is your life above  
the rest? A great gift in God's gift book  
Than to have lived on earth as man of  
world.

Magazine for February.

dial he did not hear the approaching

on the fender and carried the length of

ried on to Columbus the lad rolled off

**ROYAL FANTASTIC FEASTS.**  
Boar Heads on Silver Dishes Set in  
Hunting Scene at Bavarian Court.  
The recent doings at the court of  
Prince Leopold, the aged regent of  
Bavaria, are causing widespread com-  
ment, as they show a decided tendency  
toward the luxury and display of the  
exotic and eccentric which has landed  
recent Bavarian monarchs in virtual  
lunatic asylum, says a special cable  
dispatch from Munich, Bavaria, to the  
New York World.  
The prince regent's idiosyncrasy is in  
the direction of the most elaborate and  
fantastic table decorations and of  
dishes in extraordinary forms. At the  
latest court ball supper there was so  
dazzling an array of artistic conceits  
that the guests were with difficulty in-  
duced to demolish them. Huge lob-  
sters were set in mayonnaise fashioned  
in models of Moorish buildings, every  
detail being perfect. The meats were  
coated with a pearly paste, with the  
arms and devices of the royal house,  
with all their numerous quarterings,  
done in jelly of absolutely correct her-  
aldic colors.  
The fish were disguised in intricate  
sculpture work, designs copied from the  
most famous masters. Fillets of beef  
were served on dishes fashioned to re-  
semble the Bavarian public edifices.  
Numerous wild boar heads, lavishly  
ornamented, and quarters of deer were  
on vast silver dishes surrounded by  
oak leaves and a complete representa-  
tion of a hunting scene in delicious  
paste. The fees were laid flat on silver  
dishes and arranged to make a portrait  
of the prince regent.

**Workmen in Germany.**  
With reference to Chancellor von  
Bulow's remarks in the reichstag on  
the Kaiser's social policy the Berlin cor-  
respondent of the London Times says  
the condition of the German working  
classes does not compare favorably  
with that of the English and American  
workmen, who would not change  
places with the Germans for the sake  
of the small old age pension and state  
aid in the case of sickness.  
The position of the women, he says,  
is miserably inferior to that of English  
and American workingwomen and the  
hours of work of English people a  
whole age ahead of those of their con-  
tinental brethren.

343.94. The total amount received from  
the special anthracite assessment was  
\$1,997,026.24, making a total of \$2,255-  
370.28 from the members of the United  
Mine Workers. To this amount must  
be added \$40,000.14 donated by the  
trades unions and the public, making a  
grand total of \$2,645,370.42.  
The organization has a balance of  
hand of \$1,007,120.29.

**Spring Humors**  
Come to most people and cause many  
troubles,—pimples, boils and other

that tired feeling, fits of biliousness,  
indigestion and headache.

better, and the way to get rid of them  
and to build up the system that has  
suffered from them is to take

bership to secure at least 300 mem-  
bers. Such a membership will place  
\$1500 in the hands of the Board of  
Trade for use in carrying on the work  
of the body for the good of the city.  
It is the intention to employ a com-  
petent secretary and to issue a booklet  
descriptive of Newark and its numer-  
ous advantages as a manufacturing  
point. The Board has under consid-  
eration various other matters for the  
general interest of the city and it will  
be able to accomplish a great deal if  
it is backed up by a live contributing  
membership.

The Newark Board of Trade has in  
the past few years accomplished a  
great deal for Newark and has been  
largely responsible for the unprece-  
dented growth and prosperity of the  
city. If the proper effort is put forth  
Newark will keep on growing and  
prospering as it has done in the past.  
The Board should be a representative  
body backed by all the substantial  
men of the community and all should  
pull together for the common good of  
the city.  
Members of the committee on mem-  
bership committee may secure blanks  
from C. H. Spencer, the treasurer, by  
calling at the Advocate office. The  
chairman of the committee hopes that  
all who last Tuesday night agreed to  
do some work towards increasing the  
membership of the Board will call for  
these blanks and do some energetic  
work between the present time and  
next Thursday evening, the date of the  
annual meeting.  
Help Newark by joining the Board  
of Trade. A fee of \$5 will keep you  
in good standing during the year of  
1903.

## THE MYSTERIOUS VISITOR IS NOW INVADING MANY HOMES.

It Strikes Young and Old Who Are Physically Weak and Predisposed to Disease.

## Paine's Celery Compound

Fortifies the Body, Cleanses the Blood and Gives Strength to Resist All Attacks.

That mysterious visitor, "Grip," is now invading many homes and striking down the young and old who are weak or predisposed to disease.

It is now well known that the disease spreads rapidly to the various members of the households into which it has been introduced. It accords with the theory of infection, also, that the disease has usually attacked the persons liable to infection. Dr. Richard Sisely, in his book on "Epidemic Influenza," says the disease is almost entirely propagated by infection.

In past winter seasons it has been fully and happily demonstrated that Paine's Celery Compound is a tower of safety when grip is prevalent. When this scientific and healthgiving medicine is used, it strengthens the nervous centers of all the vital organs; it purifies the blood, regulates digestion, gives a healthy tone to the whole system, enabling young and old to feel secure from the ravages of disease. Weak, nervous, dyspeptic, and ailing people will find in Paine's Celery Compound a true protector and shield from the dangers of grip. A trial of one bottle will banish all existing doubts.

## AMUSEMENTS.

Armstrong's magnificent Electric Ballet which has proven such a novel feature with Chas. H. Yale and Sidney R. Ellis' mechanical trick spectacle "The Evil Eye," which appears at the Auditorium next Friday evening, has again been retained for the present season. This marvelous and unusual effect has been greatly improved and enlarged upon by its inventor, Mr. P. C. Armstrong, in the addition of hundreds of extra lights placed upon the persons of the dancers and around them so that as now presented the stage itself as well as the corpeuses who participate in the divertissement, seem to be one blaze of parti-colored lights which appear and disappear at will, forming undoubtedly the most beautiful and inspiring stage picture ever presented. A number of attempts toward the production of electric ballets have been made during the last few years, but all have proved rather crude and unsatisfactory, for the dancers in these cases were either overweighted with heavy batteries or attached to cumbersome cables which precluded any idea of dancing, and resulted in their only being able to walk down or back up the stage. In Armstrong's Electric Ballet the result is far different. The dancers are free from wires, cables or unusual weight. A full and complete ballet divertissement is danced with perfect grace and ease, irrespective of the fact that each costume worn in this ballet has over one hundred electric bulbs upon it, and the effect once seen can never be forgotten for it is without question of a doubt the grandest electric display ever presented in any stage. At the Auditorium Friday night, February 14.

## BROOKE'S BAND.

## METHODIST

HOME FOR THE AGED TO BE AT COLLEGE HILL.

President Weakley Already Has the Nucleus of a Fund to Use in Building.

As announced recently in this paper through a Cincinnati dispatch, the Methodist Home for the aged now temporarily located at Granville, will be at Clifton. The old people's home at Yellow Springs, Ohio, was destroyed by fire and the Newark Real Estate and Improvement Company leased one of the Granville Female College buildings to the Methodists till a new home could be built.

The Cincinnati Enquirer says: Methodist ministers and laity from all over Ohio met Thursday at the Methodist Book Concern in Cincinnati and accepted the munificent offer of Mr. Obed J. Wilson, the Clifton philanthropist, of grounds for the new Methodist home for the aged.

The site is a knoll at the south end of College Hill overlooking Cincinnati. A magnificent panoramic view is given of the surrounding country, and the location could not have been more beautiful. The property consists of nearly 20 acres. It was bought by Mr. Wilson many years ago at a cost of \$25,000 and he spent more than twice that sum in beautifying it with trees and walks. The landscaping has been of the most artistic description.

The new home will be erected as soon as possible. The cost will be without furnishings \$150,000. The structure will consist of two pavilions 125 deep with 100 rooms each and a center or administration building having a frontage of 50 feet, having 70 rooms. The work of putting up the administration building will begin at once as \$20,000 is now on hand for that purpose. The object of the institution is to furnish the comforts of a good home for homeless and helpless aged.

The home is in charge of Rev. H. C. Weakley one of the best known Methodist ministers in the west. He says that he will run the institution on broad lines. No sectarian qualifications are required for admission. When the new home is completed it is expected that it will be largely supported by endowments. The donor of \$25,000 can endow a bed in perpetuity and can name the person who is to occupy it. The minimum cost of each individual seeking admission is \$500.

A spring chicken is very tender and good, but it hardly satisfies a very hungry man.
